Operator Membership Package

2020/21

Welcome to the National Hospitality Association of Ghana - our organisation was founded in April 2020 as a response to Covid-19 and partial lockdown which saw our industry grind to a halt.

During this time we have witnessed many of our friends in the industry have to close down their business, evidently for many who are still operating we understand the stress their organisation is undergoing during these times.

The National Hospitality Association of Ghana (NHAG) has been founded to be a friend to our industry and provide assistance, guidance, support and share resources to allow us to bounce back and make our industry flourish beyond what we experienced pre-Covid.

As a young organisation we are working on building on our service offerings and events, yet we are not compromising on our quality.

We welcome you and your business to NHAG and hope we can grow strong together.
